Copies of the listed foreign and non-patent literature documents are attached. A copy of the U.S. patent publication is not enclosed.

Applicants respectfully request that the Examiner consider the listed documents and indicate that they were considered by making appropriate notations on the attached form.

In lieu of a statement of relevance or translation of the non-English documents, an English language version of the above-mentioned Notice of Rejection from the Japanese Patent Office in a counterpart application citing these documents and setting forth the relevance thereof is enclosed. In addition, Applicants note that U.S. Patent No. 5,751,957 appears to be a counterpart of the cited Japanese patent document.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claims in the application and Applicants determine that the cited documents do not constitute "prior art" under United States law, Applicants reserve the right to present to the office the relevant facts and law regarding the appropriate status of such documents.

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.
